## Cert IV in Occupational Health and Safety (OHS) BSB41407 International Students CRICOS 0699929

### Introduction

DNA Kingston Training has been a registered training provider in Australia since 1999. An award winner and finalist in Local Training and International Training.

This course is an Australian Nationally Registered qualification Cert IV in OHS and is found as a minimal pre requisite for OHS Management positions in many industries – mining, construction through to health and events functions. Excellent employment opportunities in this profession.

The programme enables you to learn a diverse range of skills with a great deal of practical experience in:

- Comply with OHS legislation
- Identify hazards
- Risk management
- Control risk
- Contribute & monitor OHS in the workplace environment
- Implement OHS strategies and
- Implement and manage emergency procedures

This is a qualification to enhance careers and create new careers for successful continued employment. Additional units in forklift driving and white card (safety card to work in industry) are included in the course to ensure you are work ready for your work experience and future employment opportunities.

### Other aspects of training

- Rolling intakes throughout the year
- Work experience / employment assistance arranged
- Real, hands on practical training
