

DNA Kingston Training

Diploma in Dental Technology (Dental Technician) International Students

HLT50507
CRICOS 064372J

Introduction

DNA Kingston Training has been a registered training provider in Australia since 1999. An award winner and finalist in Local Training and International Training.

Program Purpose

The Diploma of Dental Technology is an Australian Nationally Recognised Qualification designed to provide a broad-based training program for the Student to enable them to become a Dental Technician, who provides support (fabricating artificial dental appliances) to dental and medical personnel in public hospitals, public dental clinics and private dental laboratories / clinics or become self employed. Successful completion of the program will enable the participant to develop the knowledge and skills necessary to undertake this unique Health Professional Career in Dental Technology (Dental Technician).

The four main skill areas of Dental Technology are:

- Denture construction
- Cast partial denture fabrication
- Orthodontics
- Crown and bridge

The programme contains a substantial practical element which is driven by our highly qualified and experienced Dental Technicians to take you through the practical elements in our own established Laboratories.

In the Dental Laboratory Field, this is where practically, materials and techniques are applied to assist the Dental Profession to provide patients / clients with accurate artificial dental appliances. The Dental Laboratory Technician is a vital, functional member of a Health Care Team. Without highly skilled Dental Technicians, the Dental Profession (Dentists) would not provide a service to the public.

Program Duration

The Diploma of Dental Technology involves a total of 4 Semesters, two years full-time study, 96 weeks, with term breaks, 3 days a week, minimum 20 hours a week. 8.30 a.m. to 4.00 p.m.

Intakes

2 (two) intakes a year: Feb / March and July

Other aspects of training

- Work experience / employment assistance arranged
- Real, hands on practical training
- Guest lectures & excursions
- World class, well equipped colleges
- Qualified, highly experienced trainers and assessors with years of experience in all disciplines

Entrance requirements

No prerequisites are required to enter this programme apart from English levels

IELTS 5.5 or TOEFL 5.3 or ISLPR 2+, Upper Intermediate ESL

English assessment available

English enhancement - support is available in our college to assist entrance levels and to further increase IELTS scores, we also have links with external English Colleges.

Locations

Metro

Belmont, 5 minutes from Perth CBD - 201 Great Eastern Highway, Belmont

South Perth, 5 minutes from Perth CBD - 38 Meadowvale Ave, South Perth

Regional

Bunbury, 1.5 hours from Perth - Unit 1 / 76, Spencer Street, Bunbury

Mandurah, 1 hour from Perth - Unit 6 & 7, Peel Street, Mandurah

DNA Kingston Training has its own College Bus. Students who wish to use this service, meet at allocated meeting points to be taken to Metro training locations in the mornings and then returned in the afternoons.

Career

Dental Technician in public hospitals, public dental clinic, private dental surgeries, private dental laboratories / clinics or become self employed and run your own Dental Laboratory.

Pathways

Links and options exist between various levels of study. Accredited pathways exist, enabling students to move between different courses with in DNA Kingston Training and other educational institutions.

University Pathways and credit recognition have been established with Edith Cowan University Joondalup and DNA Kingston Training.

Future Educational Pathways

After achieving the Diploma in Dental Technology, candidates may undertake the Advanced Diploma of Dental Prosthetics HLT60407. Opportunities to study this course vary across Australia. You will be skilled to take impressions and work directly with the public in fabricating full upper and lower dentures in your own clinic and laboratory, without the Dentists involvement.

Licensing, Legislative, Regulatory or Certification Considerations

No licensing, legislative, regulatory or certification requirements apply holistically to this qualification as has been de-regulated in Australia in 2010.

Recognition of Prior learning

Recognition of prior learning (RPL) may be given for skills and knowledge gained through previous studies or other relevant experience. For further information please contact DNA Kingston Training.
