

Dental Nursing Australia

Infection Control Courses

You have a variety of delivery methods in which you can access infection control training, depending on the need and level of training you wish to achieve for the individual and the practice.

1. Infection Control workshop for the Practice at the Practice.

Length of workshop: Half day

Half day seminar includes: a power point presentation, manual for the practice to keep and certificates of attendance for those who participate. Auxillary staff, Management and Principles of the practice are welcome to attend.

Information in the half day workshop includes:

- Microbiology
- Infection Control Methology
- Sterilization Techniques
- National Standards
- Universal Standards
- Policy and Procedures
- Occupational Health and Safety
- Decontamination Procedures
- Handwashing Protocol
- Chemicals Utilized

Advantages of a half day workshop for your Dental Team:

- Gain valuable knowledge on the new National Infection Control Standards
- Empower your staff to implement these standards
- How to find out further information in infection control
- Suggestions incorporating the standards into the day to day workings of the practice as a team.
- Practical demonstrations on handwashing techniques, decontamination of the surgery and any other practical areas the practice feel they need to be uniformed.
- Assist in creating a learning and creative culture in the Staff regarding infection control.
- Assist in developing new policies and procedures to motivate all to work towards excellence in this area.
- Enhance work ethic and pride in their practice

Cost: \$550.00

2. Individual Staff Development

Staff who feel they would like to attain Nationally Recognized Units in the area of Infection Control / Sterilization can enrol from the National Health Training Package HLT07.

Objectives include:

- Microbiology
- Infection Control Methodology
- Sterilization Techniques
- National Standards
- Universal Standards
- Policy and Procedures
- Occupational Health and Safety
- Decontamination Procedures
- Handwashing Protocol
- Chemicals Utilized

This is a correspondence module which requires the participant to complete written exams and /or assignments and be assessed at the workplace.

Information and exercises are sent out to the Student to provide creative learning and self assessment material. When they feel they are competent they can sit the written exam paper under supervision at the practice.

Cost \$350.00 + GST per Unit \$75.00 Enrolment fee

3. Further customized training or workshops

Motivated practices who feel they would like to develop on going training in this area or extend the sessions of training, can establish customized units. These are developed for your individual practices needs. These are charged on individual requirements and length of training.

Lecturing Staff

All Staff have a minimum of 12 years experience in Dental Assisting or Dental Nursing with a Qualification recognised in W.A. and a Certificate IV in Training and Assessing. Lecturers in this area delivering the training are in constant communication with Government and Private professionals in the Infection Control area of W.A. and attend all ADA courses in this area to complement the ADA W.A. policies.

Please contact Susan Lawton should you require any further details on *Ph-1300855503* or *Fax- 97263383 Email- admin@dentalnursingaustralia.com*

Wishing you much success with your endeavours in Infection Control Training

Thank you for contacting Dental Nursing Australia for information regarding Infection Control courses. We are a Registered Training Organization under the new AQTF accreditation and have won the award "Small Training Provider of the year 2002 and finalist 2003, 2004, 2005 and 2007 in the Department of Education and Training awards.

The units associated with Infection Control /sterilization are from the new Health Training Package, which is nationally recognized.

Once completing the Units you will receive a certificate - Statement of Attainment.

The cost of each unit is \$350.00 plus a \$75.00 enrolment fee.

Workshops can also be delivered at the practice for the practice. These are power point presentations delivered by qualified staff, to all the employees of the practice. They provide information stated in the above headings, hands on demonstrations, bound manual for the practice and certificates of attendance for all who attend. Cost of a half day workshop is \$450.00. The module can be delivered by correspondence and is structured into individual sections
